Skate Australia Education Plan

Introduction

Education is key to protecting the integrity of Australian sport. Sport Integrity Australia (SIA) and Skate Australia are committed to working together to mitigate and manage integrity threats to provide a safe and fair environment for participants at all levels of sport.

This Education Plan has been developed in partnership with SIA, who will support this plan through the provision of education resources and interventions as and where possible. It outlines the required and recommended education interventions for all members of Skate Australia to facilitate compliance with the National Integrity Framework policies, Skate Australia Anti-Doping Policy and the World Anti-Doping Code International Standard for Education (ISE).

Anti-Doping

Under the ISE, Sport Integrity Australia is required to ensure specific cohorts receive anti-doping education - either via online or face-to-face education. A key principle of the ISE is that athletes should receive education prior to being tested.

To satisfy these requirements, the following cohorts are required to receive anti-doping education:

- Any athletes included in Registered, National or Domestic Testing Pools;
- Any athletes and support personnel* competing or involved in International or Declared events, championships or competitions;
- Any athletes and support personnel* competing or involved in leagues subject to User Pay testing;
- Any athletes and support personnel* returning from an Anti-Doping Rule Violation sanction.

The education requirements of cohorts outside of these categories are tailored to the unique environment of Skate Australia, which is outlined in the following attachments:

Attachment A - Required and Recommended Education – Outlines the anti-doping education requirements and recommendations for Skate Australia members, categorised by membership type and competition level.

National Integrity Framework

The topics outlined in this Education Plan provide a structured approach to educating members and key stakeholders about Skate Australia's integrity policies and Sport Integrity Australia's independent complaints process.

Skate Australia is responsible for ensuring education is provided to specific cohorts to help participants in the sport become familiar with their obligations under the National Integrity Framework. The type of education for each cohort is outlined in the following attachment:

Attachment A - Required and Recommended Education - Outlines the integrity education requirements and recommendations for Skate Australia members, categorised by membership type and competition level.
