RULES OF THE AUSTRALIAN ARTISTIC COMMITTEE

SECTION A: Australian Championships

(Refer also to SA Rules governing championships and competitions)

A1.00 DISCIPLINES

- (1) Championship events shall be arranged in the following disciplines: Figures, Freeskating, Pairs, Dance, Free Dance, Solo Dance, Solo Freedance, Creative Solo Dance, Precision Team Skating, Show Groups, Quartets and Inline Skating.
- (2) There shall be separate awards for men and ladies in all singles events except as follows:
 - a) For Solo Dance events, separate awards will be made for men and ladies in Cadet, Youth, Junior and Senior Solo Dance grades.
 - b) For all other grades of Solo Dance, the events will be dual sex events, and a single award will be made for each event.
- (3) Precision Skating Teams shall consist of men and/or ladies belonging to the same State unless specific approval is granted by AAC Executive and Skate Australia Board.

A2.00 GRADES

A2.01 GENERAL

- (1) The Australian Championships will be divided into 2 sections:
 - a) International Grades, including the following:
 - i) Primary (except CSD)
 - ii) Juvenile
 - iii) Cadet
 - iv) Youth
 - v) Junior
 - vi) Senior
 - vii) Junior Inline
 - viii) Senior Inline
 - ix) Precision
 - x) Groups
 - b) National Grades, including the following:

- i) Tiny Tots
- ii) Primary CSD
- iii) Preliminary
- iv) Masters
- v) Advanced Masters
- vi) Advanced
- vii) Inline
- viii) Precision
- ix) Groups

- (2) Entry in each discipline shall be according to grades listed.
- (3) All ages shall be determined by the age of the skater BY 1st January of the skating year, unless specifically noted otherwise in specific disciplines below. This means that a skater who turns 17 on any date in the skating year (including 1st January) is still considered to be 16 for the skating year. This has been confirmed by WSK ATC as being the correct interpretation of the WSK ATC manual which determines ages "as of 1st January of the skating year".
- (4) All skaters must compete in the correct event for their age. There is NO provision for skaters to be able to "skate up" in a more advanced age grade unless the ages requirements of the grade allow it, eg, Preliminary and Advanced which are open ended (for upper age limits) as far as ages are concerned.
- (5) The exceptions to this rule are as follows:
 - a) In Dance Pairs, the age of the older member of the team shall determine the correct age grading. Note however that skaters under the age of 12 for the skating year will not be eligible for selection to international teams.
 - b) In Freeskating Pairs, the age of the man shall determine the correct age grading. Note however that skaters under the age of 12 for the skating year will not be eligible for selection to international teams.
 - c) In Dance and Freeskating Pairs, skaters forming a new team may enter the National grade level of the lowest qualified partner provided they qualify by age.
- (6) For the TRANSITION from the existing structure to the new structure, in 2018 ONLY, skaters will be able to move back to their correct age grades, regardless of whether or not they have skated the same discipline in international competition. This rule over-rides those rules below which prevent a skater from entering a grade if he has skated Junior or Senior grade at an International competition.

- (7) Skaters who exercise the right to move back may then progress through the structure from 2019 onwards (subject to A2.02 below).
- (8) If a skater does NOT exercise the right to move back to the correct age group in 2018, then that skater WILL be required to move to a grade such as Advanced until the skater fits the age grades again.

A2.02 FUTURE CHANGES IN GRADES

- (1) WSK ATC has given notice of further changes to grades and to the ages for entry into those grades, which will take effect in 2019.
- (2) The additional changes will be advised as soon as possible. However, all coaches, officials and others should be aware that these changes are coming in 2019 and should be proactive in assessing the effect of these changes on their skaters in future competitions and in selection of grades for their skaters leading up to 2019.
- (3) Skaters WILL be required to enter grades in accordance with World Skate ATC rules in 2019.

 - e) Details of all fees (nomination, registration, spectator, etc.)
 - f) Grades and details concerning eligibility to nominate in those grades
 - g) Person (name and address) to whom nominations must be forwarded
- (2) Notices must show the sanction number granted and they should be posted to reach all invited clubs no less than twenty-one (21) days before the closing date of nominations. Notices should not be altered once sanction has been granted.
- (3) A list of names of officials who have indicated a willingness to officiate must accompany the sanction application. Student officials, if used, must be capable of fulfilling the duties of officials. It is a duty of the organiser(s) to ensure that students ARE capable.
- (4) Within seven (7) days of sanction being granted by an authorising body other than the AAC (i.e. States or SA), a copy of the notice, with sanction number indicated, shall be forwarded to the AAC Chairman.

- (5) Responsibility for all matters pertaining to a sanctioned event is one of the duties of the organiser(s).

B3.00 SANCTION FEES

- (1) Sanction fees shall be set from time to time by the AAC. Sanction fees shall be remitted to the SA Office for credit to the AAC Account within twenty-one (21) days of the conclusion of the event.

SECTION C: Artistic Proficiency Test Program

(Refer also to SA and CAOC Rules concerning Proficiency Tests)

C1.00 GENERAL INFORMATION

- (1) Proficiency test requirements and the rules for judging, refereeing and calculating are set out in the relevant manuals published by SA and altered from time to time.
- (2) State Artistic Committees and Clubs (with the approval of the State Artistic Committee) are authorised to organise test centres at their own expense.
- (3) The AAC may organise gold test centres from time to time depending on the needs of candidates and funds available.
- (4) All test fees are set by the AAC Executive and are payable to the AAC by the test centre organiser who collected them.
- (5) Awards and electronic forms are available to States from the AAC Chairman. States shall provide awards and electronic forms to clubs within their State.
- (6) Each candidate (or a responsible adult) shall complete and sign a Test Application/Report form including Content List for Freeskating and Pairs (as described in the relevant manuals). The electronic file for each test shall be forwarded to the Test Centre Organiser.
- (7) Judges Marking Sheets and Content Lists shall be forwarded to the CAOC Panel Chairman at least ten (10) days prior to the date of the test.
- (8) The CAOC Chairman shall approve the commissioned officials for gold test centres and approval must be sought at least fourteen (14) days prior to the date of the test.
- (9) State CAOC Panel Chairmen shall appoint commissioned officials for State Test Centres and they shall approve commissioned officials for Club Test Centres. Approval must be sought at least fourteen (14) days prior to the date of the test.

C2.00 CLUB TEST CENTRES

- (1) To approve officials for Club Test Centres, the State Panel Chairman shall receive from the test centre organiser a list of candidates and a list of invited officials.
- (2) Approval may be given verbally but disapproval must be given in writing and reasons(s) for disapproval indicated.

C3.00 STATE TEST CENTRES (Gold level)

- (1) To approve officials for State test centres at gold level or including gold level tests, the National CAOC Chairman shall receive from the State Artistic Vice-President a list of candidates and a list of invited officials.

- (2) Approval may be given verbally, but disapproval must be given in writing and reason(s) for disapproval indicated.

C4.00 TEST CENTRE SUPERVISOR

- (1) The Test Centre Supervisor shall determine the skating order of the candidates for the various tests and advise officials and candidates in advance.
- (2) If time and circumstances permit, the test centre supervisor may authorise successful candidates to skate higher tests in the same discipline. Before skating a higher test, the candidate shall submit the necessary Application/Report form and test fee(s).
- (3) States and Clubs should refer to CAOC Rules and artistic manuals for further information concerning tests, test centres, test requirements and the judging of tests.

SECTION D: Appendix to Artistic Proficiency Test Rules

(from CAOC Manual)

The following has been included in this booklet for use by clubs and States to assist them in the organising of a test site. Clubs and States should be aware of all the rules of SA, AAC and CAOC which could affect a placing at a championship or the results of a proficiency test. (The numbering of the following is not that used in the CAOC Manual)

D1.00 TEST STRUCTURE

- (1) Artistic Proficiency Tests are held in the fields of Dance, Solo Dance, Freedance, Solo Freedance, Figures, Precision, Freeskating, Pairs and Inline freeskating.
- (2) All proficiency tests shall be conducted in accordance with the rules of the AAC as approved by SA. The rules shall be strictly adhered to. SA reserves the right to vary the choice of judges from amongst those available and in the interests of roller skating at the present time.
- (3) A copy of AAC, CAOC and specific discipline rules must be available at all tests for reference by judges, referees and other officials. Candidates should study the rules thoroughly and frequently and well in advance of the tests. Coaches especially should know the rules thoroughly and should restrain their pupils from applying to take tests before they are fully prepared.
- (4) The SA/AAC Test Structure is for proficiency tests only and nothing more. Proficiency tests are not experimental forums for introduction and exploitation of new routines. In their selection, the test's characteristics (embodied in the collection of tests) are and will remain fundamental and basic. Selection of requirements should be made from those listed for each particular test and, in freeskating and freedance routines, compulsory items may be selected only from those listed for a particular test.

D2.00 GENERAL REGULATIONS

- (1) Only currently registered eligible SA members may take tests and candidates must be in possession of a current SA membership card at the time of lodging an application to take a test in accordance with current Skate Australia rules – by law 3.
- (2) Arrangements to take tests must be made in accordance with the current AAC rules governing proficiency tests.
- (3) Before becoming eligible for a higher test, a candidate must have successfully passed all previous tests in that discipline.
- (4) Skaters from overseas must apply for recognition of their proficiency test achievements. Skaters from a country with proficiency tests should

provide evidence of the tests completed to an Australian international judge or another international judge approved by the AAC, and start Australian tests at the closest equivalent test as determined by the judge. Decision by the international judge to be advised to AAC, CAOC and proficiency test database manager as soon as possible after determination.

- (5) If the skater comes from a country without proficiency tests, they must be assessed by an Australian international judge or another international judge approved by the AAC, and start tests at either 1st Bronze, 1st Silver or 1st Gold depending upon the level of competency determined by the international judge. Decision by the judge shall be advised to AAC, CAOC and proficiency test database manager as soon as possible after determination.
- (6) Tests must be completed in the same twenty-four (24) hour period.
- (7) No re-skating of any portion of a test shall be permitted except where detailed in the Figure and Freeskating manuals and in Dance where, if one or more judges deem it necessary, a candidate may be required to repeat any part of the test either solo or with the same or another partner. Re-skates are catered for also under CAOC Rule "Interruption to Skating".
- (8) A candidate who fails a test must wait at least ten (10) days before being permitted to re-take that test and a new application must be made.

D3.00 MARKING OF PROFICIENCY TESTS

- (1) The minimum mark for all artistic proficiency tests is 5.0 for any one element of the test (i.e. for each dance, each figure and each of Artistic Impression and Technical Merit).
- (2) Any judge awarding a mark lower than the minimum mark must note the reason for the score on the marking sheet and draw it to the attention of the referee (NOTE: The official transferring marks to the Application/Report must indicate the reason given by a judge for a below minimum mark). No other comments, except with the permission of the judge concerned, may be transferred from the marking sheet to the Test Report as these comments are made for the judge's personal reference only in case of a query).
- (3) The awarding of a below minimum mark indicates a failure from that judge regardless of whether or not the overall scores from the same judge add up to or exceed the minimum passing total. This applies to all levels of proficiency tests - bronze through gold.
- (4) NOTE: To pass a proficiency test, the candidate must receive from a majority of the judges at least a 5.0 for each test element PLUS at least the minimum passing total.

D4.00 TEST REFEREE

- (1) A referee must preside over each test. If a commissioned referee is not available (in Figures and Compulsory Dance tests only), the highest qualified judge officiating may act as referee. Where all judges hold the same commission, one will be chosen to act as referee.
- (2) For tests where a time element is involved (all tests other than compulsory dance and figure tests), a fourth official qualified to judge the grade of test being skated, or a commissioned referee shall be required to act a referee. Where there is a shortage of qualified judges and/or referees, the judge with the highest commission may act a referee BUT HE MUST APPOINT A FOURTH PERSON TO PERFORM THE TIME-KEEPING DUTIES. The time-keeper so appointed must have a sound knowledge of the time-keeping duties required at tests.

D5.00 INTERRUPTION TO SKATING (Proficiency Tests ONLY)

- (1) When a candidate interrupts his skating for illness, disability, mechanical failure or outside interference, he shall be permitted to re-skate the test (to be judged entirely anew), provided that time permits within the time allocated to the Test Centre. In the case of compulsory dance or figures, if the test can be resumed, it shall be from the compulsory dance or figure during which the interruption occurred. If time does not permit, the application shall be deferred to the next Test Centre, and the test re-skated in its entirety.

SECTION E: International Artistic Competitions & Championships

E1.00 MINIMUM AGE FOR SELECTION FOR INTERNATIONAL COMPETITIONS

- (1) For selection as a member of any International competition team, a skater must be aged at least 12 as at 1st January of the skating year in which the International Competition is held.
- (2) For selection as a member of a team to skate Junior Inline Freeskating, a skater must be aged at least 12 as at 1st September of the preceding skating year in which the International Competition is held.
- (3) Skaters not meeting this age requirement will not be considered for selection.
- (4) This restriction applies to individual skaters as well as ALL members of any team, whether the team is a couple or a Precision, Show or Quartet team.
- (5) Skaters MUST also meet any other age requirements of the particular competition or grade for which selection is being made.
